Save Water
Keep San Bernardino Beautiful

The Code Enforcement Division, now part of the San Bernardino Police Department, is partnering with the San Bernardino Municipal Water Department to promote beautifully maintained and water-efficient properties. It is our goal to assist residents in complying with San Bernardino City landscape ordinances and to encourage using water wisely.

San Bernardino continues to experience drought conditions, and local water basin levels remain at historic lows. To protect our local resources and reduce water waste, the San Bernardino Municipal Water Department (SBMWD) has ongoing outdoor water use restrictions.

Water Use Restrictions

- Irrigation is limited to Mondays, Wednesdays, and Fridays only
- Irrigation is allowed only before 8:00 a.m. and after 6:00 p.m. on permitted water days
- Maximum irrigation cycles of 15 minutes per station, per day
- No watering of outdoor landscapes in a manner which causes excessive runoff
- Restaurants may serve water only upon request
- Irrigation is prohibited for 48 hours following rainfall of 1/8" or more
- All leaks shall be corrected within 72 hours of Department notification
- No washing down driveways, sidewalks, or other hardscapes
- Automatic shutoff nozzles required when washing vehicles
- All hotels/motels shall provide guests with the option of not having towels and linens laundered daily

Failure to comply with water restrictions can result in fines of up to $500 per incident. A full listing of SBMWD water use restrictions as outlined in Water Department "Rule and Regulation 21 Section I" can be found at sbcitywater.org

For questions regarding City of San Bernardino landscape ordinances, please call SB Direct at (909) 384-7272. For questions regarding San Bernardino water use restrictions, please call SBMWD at (909) 384-5141.

We Want to Help You Save Water and Money

SBMWD is now offering new NO COST water conservation service programs. Through these programs eligible customers can receive a FREE weather-based smart irrigation controller, professional installation and set-up, as well as one-on-one onsite guidance on efficient outdoor water use. Both programs are provided as a free service to customers and homeowners of the San Bernardino Municipal Water Department.

Outdoor Rebates

Turf Removal: $2 per square foot up to $2,000 to replace grass with approved materials.

High-Efficiency Sprinklers: 50% up to $200 for approved high-efficiency sprinkler nozzles.

Drip Irrigation System: 50% rebate up to $150 for drip irrigation systems.

Turf Replacement Materials: 50% rebate up to $300 for mulch, gravel, or other water-saving materials.

Irrigation Controller: up to $250 rebate for a weather-based irrigation controller.
